REPORT No FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or comsumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawls for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption:

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouse, are included when the finished products is withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawl for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data exclude information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continential United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroups valued under $10,000" totals appearing in the monthly reports will be supplied on request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group total for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog to United States Foreign Trade Statistics Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

IMPORT STATISTICS
William C. George

REPORT No FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawls for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption:

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouse, are included when the finished products is withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawl for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data exclude information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continential United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroups valued under $10,000" totals appearing in the monthly reports will be supplied on request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group total for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog to United States Foreign Trade Statistics Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

IMPORT STATISTICS
William C. George

REPORT No FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawls for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption:

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouse, are included when the finished products is withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawl for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data exclude information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continential United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroups valued under $10,000" totals appearing in the monthly reports will be supplied on request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group total for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog to United States Foreign Trade Statistics Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

IMPORT STATISTICS
William C. George

REPORT NO. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawals for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouse, are included when the finished products are withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawal for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data exclude information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continental United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country names from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroups valued under $10,000" totals appearing in the monthly reports will be supplied on request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group total for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog of United States Foreign Trade Statistical Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

IMPORT STATISTICS
William C. George

REPORT No FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawls for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption:

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouse, are included when the finished products is withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawl for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data exclude information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continential United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroups valued under $10,000" totals appearing in the monthly reports will be supplied on request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group total for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog to United States Foreign Trade Statistics Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

IMPORT STATISTICS
William C. George

REPORT NO. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawals for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouse, are included when the finished products are withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawal for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data exclude information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continental United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country names from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroups valued under $10,000" totals appearing in the monthly reports will be supplied on request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group total for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog of United States Foreign Trade Statistical Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

NEW REPRINT OF SCHEDULE A TO BE AVAILABLE SOON

A reprint of Schedule A including all corrections made to May 1, 1952, will be available shortly. This edition is a reprint of the August 1, 1950, edition incorporating all of the changes which have been made by supplementary bulletins since the 1950 edition was issued.

The new 1952 reprint includes the modified rates of duty and changes in classification necessary to reflect concessions neogtiated at Geneva, Switzerland, Annecy, France, and Torquay, England, under the General Agreement on Tariffs and Trade (GATT). The 1952 reprint of Schedule A will again be printed in loose-leaf form, and changes in the Schedule will be made by public bulletins and/or revised insert pages.

Copies of the new issue of Schedule A will be available about September 1, 1952. Subscriptions may be placed immediately with the Superintendent of Documents, Government Printing Office, Washington 25, D. C., U. S. Department of Commerce Field Offices, or Collectors of Customs. The price of the Schedule is $3 per copy to domestic subscribers and $4 per copy to foreign subscribers. These rates include the supplemental bulletins and insert pages for a period of at least 1 year. Checks and money orders should be made payable to the Superintendent of Documents. Coins and currency are sent at the sender's risk. Postage stamps, foreign money, or defaced or smooth coins are not acceptable. Remittance must be accompanied with the order.

IMPORT STATISTICS
William C. George

REPORT NO. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawals for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouse, are included when the finished products are withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawal for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data exclude information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continental United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country names from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroups valued under $10,000" totals appearing in the monthly reports will be supplied on request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group total for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog of United States Foreign Trade Statistical Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

IMPORT STATISTICS
William C. George

REPORT NO. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawals for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouses, are included when the finished products are withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawals for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data include information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continental United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroup valued under $10,000" totals appearing in the monthly reports will be supplied upon request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group totals for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog of United States Foreign Trade Statistics Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

IMPORT STATISTICS
William C. George

REPORT NO. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawals for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouses, are included when the finished products are withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawals for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data include information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continental United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroup valued under $10,000" totals appearing in the monthly reports will be supplied upon request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group totals for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog of United States Foreign Trade Statistics Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

IMPORT STATISTICS
William C. George

REPORT NO. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawals for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouses, are included when the finished products are withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawals for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data include information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continental United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroup valued under $10,000" totals appearing in the monthly reports will be supplied upon request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group totals for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog of United States Foreign Trade Statistics Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

IMPORT STATISTICS
William C. George

REPORT NO. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawals for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouses, are included when the finished products are withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawals for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data include information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continental United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroup valued under $10,000" totals appearing in the monthly reports will be supplied upon request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group totals for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog of United States Foreign Trade Statistics Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).

IMPORT STATISTICS
William C. George

REPORT NO. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation.

(b) Warehouse withdrawals for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, ores and crude metals, such as copper, lead, and zinc, which were entered into bonded smelting and refining warehouses, are included when the finished products are withdrawn for consumption or for exportation. Commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawals for exportation are also included.

The statistics in this report, as well as in other reports on United States imports, covers shipments by rail, truck, air, parcel post, pipeline, etc., and all vessels including Army and Navy operated vessels. Reports FT 972, 973, 303 and other vessel shipping reports presenting import data include information on imports carried on Army-or-Navy-operated vessels (See Reports FT 972, 973, and 303 for a more complete description.)

Shipments to continental United States from United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800. They are not included in this report, nor in the vessel shipping reports mentioned above.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest editions of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country. To save printing costs in the monthly issue of this report (but not in the annual issue) imports included in subgroups whose individual totals are less than $10,000 for a designated country are combined within the applicable commodity group as "Subgroups valued under $10,000." Information on imports under each subgroup included in the "Subgroup valued under $10,000" totals appearing in the monthly reports will be supplied upon request. A charge may be made to cover the cost of preparing this detailed information. Figures followed by an asterisk represent group totals for imports from designated countries of origin; the commodity group code indication appears in the column labeled "Subgroup code number." See table of contents and import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available free upon request.

Price: Annual subscription (including annual and monthly issues)..... $1.75
Monthly issues, each..... 0.15

Subscriptions to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Regular subscribers to FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog of United States Foreign Trade Statistics Publications listing reports available on a free and paid basis is available free upon request to the Bureau of the Census.

Data in this report are available for reference purposes prior to the publication of the report. (Further information may be obtained from the Bureau of the Census).
